OFFICE OF THE ... FOR EDUCATION, P. ... Date 12/2/47 No 5352

Sir,

I have the honour to state that, about May, 1945, at the request of the Engineer Officer, Bangalore City Improvement Trust Board, the Department of Biochemistry of this Institute took up the examination of specimens of sewage and industrial wastes with a view to determining whether the latter have any adverse effect on the composition of the sewage as also on the pipe system in general. The Engineer Officer advised us that we would have every possible assistance in conducting the systematic study of this problem and also that the City Improvement Trust Board would gladly meet the charges for the examination

2) A Copy of the note may be sent to the Chairman Tr Board for his immediate sufficient & report

We submitted our preliminary report in due course and as we found that we were not receiving the necessary assistance in regard to the undertaking, we submitted two bills amounting to Rs. 260/- to the Engineer Officer for the work already done in the Department. Even though a number of reminders has been sent, the bill has not yet been honoured, Nor have we had any communication from the Engineer Officer on the subject.

The Chairman of the Bangalore City Improvement Trust Board was, therefore, approached on 16th October, 1946, in this connection. We were given an assurance on the 7th of Novem-ber, 1946 that early payment of our bill would be arranged.

But, in spite of two further reminders, we have not heard from the Office of the Chairman, Bangalore City Improvement Trust Board so far.

It is, therefore, requested that necessary action may please be taken to expedite the payment of our bill which has remained unpaid for nearly two years.

I have the honour to be,
Sir,
Your most obedient servant.
